

Build Your Future

With CWA/NETT Academy's Certificate Programs

CWA/NETT Academy has bundled together groups of 4 to 13 courses that together create valuable building blocks for your career. Once you have completed the roster of courses, you will earn a specialized certificate from Stanly Community College, a fully accredited institution. CWA Members and their families can earn:

- Fundamentals of Telecommunications Certificate
- Telecommunications Electronics Certificate
- Residential Networking Certificate
- Convergence Technologies Certificate
- Internetworking Certificate
- Internetworking Apprentice Diploma

At the completion of each of these certificate programs, you'll also be prepared to test for a number of industry certifications.

"The support I received was phenomenal!"
