

CWA/NETT Academy
501 3rd Street NW, Washington DC 20001

Explore our essential new fiber program

- **CIS 3015 Fiber Optics Primer, \$99.00**
- **ELN 236 Fiber Optics & Lasers (FOI)**
- **CIS 3016 FTTX and PON Install and Support (FOT)**

Be ready when the opportunity presents itself and keep the work, and your job, in the unit.

Our program gives you the knowledge and skills you need to design, install, test and maintain a fiber optic PON. Whether you're in the field or on the phone, understanding how fiber optic technology works makes your job easier.

Getting the education you need to take the certification tests is invaluable. Our students have a **100% pass rate to date** for the Fiber Optics Installer and Fiber Optics Technician certification tests!

Classes forming NOW. To get more information on the program, visit www.cwanett.org, contact kcelata@cwa-union.org or call 1-877-676-4553.

*"This is my fourth CWA/NETT Academy course. The instructor was out of this world. I'll never go back to a real classroom."
Kelly Wolfe, ARTI Communications Assistant, Local 4100,
Dearborn, MI*
